QUALITY POLICY

Since our establishment, we are dedicated to our mission and will remain as dedicated also in the future. In order to reach to our vision and strategical objectives, our quality policy that we undertake to comply with is comprised of the following principles;

- We will maintain our characteristic to be an institution which gives priority to the satisfaction of our stakeholders during execution of all our activities.
- We will comply with the regulation, legal regulation and obligatory standards which are valid for our organization.
- We will work without compromising any general and professional ethics and our values,
- We will proactively fictionalise, carry out and manage all our activities based on risk based approach,
- We will continue our feature to provide an environment in which all our stakeholders meet by experiencing friendship, companionship, success, competition, art and culture together,
- We will seek for our competition advantage in idealization of our own administrative, technical and sportive skills,
- We will convert the desire and effort of continuous improvement into a natural attitude for our employees and into a significant element of our organizational culture,
